

Internship as a Business Consultant (m/w)

You are interested in an internship as a business consultant in an outstanding IT and professional services company?

Perfect if you are ambitious and talented. We are looking for interns in business consulting for our professional services division in our headquarters in vibrant Zürich-West, immediately or upon agreement.

About us

Numcom Software AG is an internationally operating Swiss software company which develops and distributes the industry leading all-in-one platform Appway. The Appway technologies and methodologies support organizations in all industry sectors worldwide in attaining new levels of agility and efficiency, becoming more competitive and implementing innovations in a pioneering way. Our business consultants accompany our customers from the analysis of the business processes until the implementation of the jointly developed solution.

As an intern you will

- Gain insight and collaborate in challenging projects covering all the aspects of a modern project, from analysis to solution implementation and training
- Support the development and implementation of customer specific solutions for the automation of high-value business processes built with our pioneering all-in-one platform Appway for customers in Switzerland and abroad
- Assist in the project management
- Make first experiences with Business Process Management (BPM)
- Gain insight in the daily life of a business consultant at Numcom

Requirements

- You are in an advanced semester or shortly before the end of your studies in business administration or business informatics (Uni, HSG, ETH) or have absolved a commercial training with vocational diploma (higher education entrance qualification) as well as first professional experiences in banking or IT
- A pronounced affinity towards IT as well as a special interest for the financial services industry guide your professional path
- You are communicative, solution oriented and distinguish yourself through engagement, flexibility, quality awareness and a high working moral
- Excellent German and English skills in speech and writing are a requirement, good French and/or Italian skills are of advantage

Are you interested?

We are looking forward to your application at job2010c@appway.com
